About The Show

The **2nd Edition of 3p Bangladesh Expo** is a must-attend event for anyone interested in the latest developments and innovations in the Bangladesh Plastic, Paper, and Packaging Industry. The fair will feature the latest technologies and products from top manufacturers and suppliers in the industry. Attendees will have the opportunity to explore the latest products and services from leading Bangladesh Plastic, Paper, and Packaging Manufacturers and Suppliers, as well as learn about the latest trends and developments in the Paper, Plastic and Packaging industry.

OPPORTUNITY OF **BANGLADESH FOR PLASTIC, PAPER, AND PACKAGING INDUSTRY**

PLASTIC

The current size of the global plastic market is \$570 billion and is growing at an average annual rate of 20%. At present there are 3,000 plastic manufacturing units, 98% of which belong to the Small-Medium Enterprises (SMEs). Domestic market size is Tk 7,000 crore. Per capita consumption of plastics in Bangladesh is 5 kg per year. The plastic sector constitutes 1% of GDP and provides employment for half a million people. The opportunity cost that results from producing enough plastic bags for the world's growing population is staggering.

PAPER

The paper industry has become a successful sector in Bangladesh and it has a great potential to become one of the country's major foreign currency earners, experts say. After readymade garments (RMG) and leather industry, this sector is playing a vital role in our national economy. Considering the future demand of paper of 24 million tonnes by 2025, an additional 12 million tonnes of wood is required from 1.2 million of pulpwood plantations. Growing population and increasing literacy rates: With a population of over 1.3 billion people, the demand for paper products such as notebooks, textbooks, newspapers, and magazines has been increasing. Many pulp and paper companies are demonstrating leadership in responsible forestry and plantation management as well as in clean manufacturing processes and recycled content.

PACKAGING

According to industry insiders, the market size of the local flexible packaging industry is around Tk6,000 crore with an annual growth rate of around 20%. The industry employs around 50,000 people and has a local annual demand for 2 lakh tonnes of flexible packaging material, with 80% being met by domestic companies.

According to research by Smithers in The Future of Packaging: Long-Term Strategic Forecast to 2028, between 2018 and 2028 the global packaging market is set to expand by almost 3% per annum, reaching over \$1.2 trillion. The global packaging market has increased by 6.8% from 2013 to 2018.
